### Peer-to-Peer Consultations: Helping Other Congregations Search for Their Next Executive Director

Congratulations on your successful professional search!! We trust that your experience in developing, conducting and concluding your congregation's professional search has been a satisfying and effective one. Yasher koach to you and to all who worked alongside you in this impactful endeavor.

One way in which you can share the expertise you've gained with leaders of upcoming professional searches in other USCJ-affiliated congregations is to allow us to refer those chairpersons to you, for a private conversation. Such conversations would afford those in first-time searches to avoid serious procedural errors, to benefit from the recent experience of other congregational leaders, and will bring substantial confidence to them as they proceed in finding key professional personnel for their synagogue leadership.

May we offer your assistance to them?
